

Jackie Kramer's Photography Online 2023

PASNWPA member **Ellen Anon** is one of the featured photographers who will be speaking at Jackie Kramer's Photography Online 2023 on Friday, June 23, 2023.

Ellen's presentation is on "ICM; Beyond the Initial Hand Shake," Although the course description references flowers, the topics branch out into other areas. The entire group of speakers is impressively creative.

Ellen's images, based on nature, are sometimes realistic and sometimes abstract, but always designed to elicit emotional reactions from the viewer. Her goal is to go beyond the ordinary in ways that hopefully stimulate others to pause and appreciate the beauty and wonder of our earth in a way that balances some of the stresses of everyday life.

You can now register for the entire year's worth of Jackie Kramer's presentations (those that have already happened are recorded, as well as the feedback sessions for the homework assignments) for just \$249. This is a great value and provides a tremendous amount of inspiration by these talented photographers/artists.
